Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

The government has to care more about the economy and try to make things more affordable for people that do not have a job like me. Since George W. Bush got the Presidency, everything has gone bad and all items rising with less money on the street, market closing their doors, people, losing their jobs, killing themselves because of the worse economy in history. It's not time and it is not fair.
